

Aims

Scott White and Hookins, and its associated companies, provide multi-disciplinary consultancy services to clients in the private and public sectors. These include civil, structural and highway design; environmental and health and safety consultancy and approved inspectors providing Building Regulation approval.

As part of our Corporate Social Responsibility we aim to work with both local and country-wide Education establishments and Professional Organisations to facilitate our Policy to Engage with Education.

Actions

To meet these aims we will:

- Employ Graduates and provide them with professional training.
- Sponsor an Undergraduate programme for Engineers at UK based universities.
- Provide Undergraduate summer jobs.
- Provide mentoring to Undergraduates both at SWH offices and whilst at University.
- Provide work experience to local secondary school students.
- Engage with Schools, Universities and Young People in general via Professional Organisations.
- Annually review and set our Engage with Education Objectives
- Include Review findings in the Annual review of our Business Management System

Objectives

Our objective for this year is to continue to achieve the above aims and review our objectives as part of an annual review of our Business Management System which is audited to the ISO 9001:2008 standard.

Commitment

To ensure the above aims and objectives are achieved we will maintain the Policy for Engaging with Education as part of our Business Management System based on the requirements described in BS EN ISO 9001:2008 and ensure it forms part of our annual Policy review.
