

Policy

Environmental

Scott White and Hookins LLP is a construction consultancy practice, providing civil and structural engineering and related services from three regional offices in Bedford, Winchester and London.

As a responsible company, we acknowledge that our business and its activities and services have an impact on the environment and are committed to managing and reducing that impact through the adoption of this policy. We are committed to continual improvement of our management system and enhancement of our environmental performance.

We aim to achieve this by implementing an ISO 14001 environmental management system (EMS) and delivering against the following objectives:

- Setting and reviewing environmental objectives, targets and performance measures on an ongoing basis.
- Identify and fulfil all compliance obligations that relate to our business.
- Monitor our level of waste generated.
- Monitor electricity use and aim to maintain recent consumption reductions. Seek to reduce annual electricity use further.
- Aim for a reduction in annual gas use.
- Monitor paper and toner consumption and seek reduction in use.
- Monitor and create baseline for mix of business travel modes.
- Monitor water usage to maintain sustainable approach to levels of consumption.
- Ensure staff environmental training needs are met so they can advise sustainable design solutions within our service delivery.

We will seek to achieve these through setting specific objectives and action plans to address them, supported by training and communication as appropriate amongst staff, clients and suppliers.
