

Project Profile :: Commercial and offices NIAB Centre, Cambridge

Client: National Institute of Agricultural Botany

Scott White and Hookins' Role:

 BREEAM Assessors

Target rating - Outstanding
BREEAM **Outstanding** Certified

New BREEAM Awards shortlisted building at the National Institute of Agricultural Botany's plant research and technology laboratories centre in Cambridge.

Appointed at a very early stage as the Client side BREEAM Monitors for the full scheme that targeted and achieved the highest "Outstanding" rating. Careful planning and coordination of the client and contractor team was vital and the outstanding rating was gained via a broad mix of green technologies and sustainable design that scored highly across the BREEAM system.
