

## Project Profile :: Bespoke - Healthcare and Laboratories Royal Marsden Molecular Pathology

Client: Royal Marsden NHS Foundation Trust

### Scott White and Hookins' Role:

 BREEAM Assessors

Target rating - Excellent  
BREEAM **Excellent** Certified

New pathology laboratory building providing both research and medical facilities. The energy strategy includes an expansion of the sites existing Energy centre to incorporate a new centralised Combined Heat and Power (CHP) system, serving the building. Early reviews were carried out with the Contractor to help implement stringent site management procedures and maximise the BREEAM credits available from the construction period related BREEAM issues.
