

Project Profile :: Education

St. Edwards School

Client: St. Edwards School

Scott White and Hookins' Role:

 BREEAM Assessors

Target rating- Very Good
BREEAM **Very Good** certified

A major new three storey teaching block along with remodelling work to existing adjacent buildings. The project included a number sustainability features included extensive work to landscaping to maximise land use and ecology credits achieved.

Use of PV on the roof of the new building provided a 10% reduction in the buildings CO2 emissions and early involvement of an Acoustician coupled with associated construction detailing ensured full acoustic performance credits were achieved.
