

Project Profile: Laboratories

Structural/Civil Engineering

Rothamsted, Research Institute

SWH have been involved with the design of a number of new buildings and extensions to existing laboratory buildings at Rothamsted Research Institute.

Client

Rothamsted Research Institute

Architect

Archial Norr

Since 2013, SWH have worked on a number of developments at this site.

- **RDP4, Rothamsted** - £1.2m refurbishment and extension of research and office facilities to 3no. existing buildings. Completed 2013.
- **Rothamsted Masterplan Project undertaken in 2013** - Work included infrastructure and drainage assessment for the future development of the campus.
- **A shared facilities building** - £6.8m new laboratory building to provide an innovation hub for research. Work included a reinforced concrete frame with steel upper framed storeys.
- **New Conference Centre** - £4.5m new conference facilities on research campus, with meeting rooms and office space.

Our project work at Rothamsted utilised three-dimensional building information modelling (BIM) extensively using REVIT.
