

Project Profile: Heritage

Structural Engineering

Tate Modern, London

Working on the iconic building of the Tate Modern was a privilege.

Client
Szerelmey Abby Pynford Limited

Scott White and Hookins were employed by a specialist brickwork trade contractor to design a bespoke masonry support system for 7 storeys of brickwork which was suspended from the primary steelwork structure above.

Our client, Abbey Pynford employed Scott White and Hookins to assist in the design and detailing of complicated temporary works to allow the formation of large opening for the main entrance to the Art Gallery.
